- 4 x Absorbent cleaning cloth

Order Code **ZE0-Z009**

## SAFE WORK AUSTRALIA COMPLIANT SPILL MANAGEMENT SYSTEM

ZeoMed™ provides a complete, quick compliant\* response solution for general and body fluid spills

### WHAT IS A BODY FLUID SPILL?

The most common types of body fluid spills that occur in the workplace, at home or in public domains are vomit, blood, faeces and urine.

*\*Complies with Safe Work Australia Code of Practice for handling body fluid in the workplace [NOHSC: 2010 (2003)]*

### WHAT ARE THE DANGERS?

In many cases, people responsible for these spills are not even aware they have a serious infectious disease.

The most serious and widespread concern is exposure to Hepatitis B and C, as well as HIV. Not only are these diseases life threatening, they can be contracted by direct contact with infected blood or body fluids.

### WHAT IS THE RESPONSE?

The kits on these pages provide a complete system for the management of spills, and protection of people in the event of a spill. Customised kits can be produced to meet your sites requirements. Contact us for an obligation free site evaluation.

### ZEOMED SPILL ABSORBENT POWDER

Incorporates a pure form of zeolite, a naturally occurring mineral ideal for a spill kit. ZeoMed clean up powder forms the basis of most of the Zeomed spill kits.

Powder can be supplement kits or form part of your current infection control system

**ODOUR** Quick acting, natural absorbent of toxic and noxious odours

**EPA** It is a 100% natural mineral, ecologically safe & non-toxic  
**MSDS** available

**ABSORPTION** Absorbs excess moisture, helping coagulate the spill

**SHELF LIFE** ZeoMed powder is inert and has no expiry date

**INGESTION** Our Zeolite is pure and milled, to ensure no dust inhalation complications

Order Code **ZE0-Z006** 200g Sachet    **ZE0-Z00501** 1kg Shaker  
**ZE0-Z00505** 5kg Tub    **ZE0-Z00510** 10kg Tub

### ZEOMED ODOUR & MOISTURE CONTROL ROCKS

A mesh pouch containing 1kg of the zeolite rock allowing the air to circulate and come in contact with the active surface. Once the zeolite is saturated its odour absorption ability can be regenerated by placing the bag in direct sunlight for 24 hours. This will recharge the zeolite for reuse time after time.

Order Code **ZE0-Z105**
